

## **I'M GOING TO RETURN MY HIRE CAR LATER THAN AGREED. IS THIS OK?**

We understand you might get delayed, so we try to be flexible. If you're running late or need to extend your car rental - do make sure you contact us as soon as possible. Should you return the vehicle late - without notifying us or extending your hire - you may be subject to a late return fee.

### How is a late return fee applied?

- If you overrun past your agreed return date and time, you will incur a late return fee
- If you still haven't returned the vehicle 24 hours later, then another late return fee will be applied
- A late return fee will continue to be added every 24 hour period thereafter, until you return the vehicle to the rental station

Please note, if you return your vehicle after the agreed date and time, you will pay an additional days rental charge - plus a late return fee for each day (or part of a day) that you are late.

### How much is a late return fee?

Depending on the country of rental, the daily late return fee will be (inclusive of VAT):

- USD 15 + VAT
- **Or the Equivalent amount in local currency**

### Rental agreement:

Please always review the rental terms and conditions and your rental agreement when you check the vehicle out. You can also find the relevant contact details on your rental agreement.
